A POP OF COLOR

HOMENATURE'S SOUTHAMPTON POP-UP SHOP HIGHLIGHTS DESIGNER TINA FREY'S COLORFUL NEW SPRING 2022 COLLECTION. BY LAURA HAWBAKER

With the approach of Homenature's quarter-century anniversary, the vintage, home goods and furniture shop presents a plethora of Earth-friendly items to beautify the modern home. The shop—launched in Amagansett by co-owners John Heilmann and Tim DiSalvo—is thrilled this season to spotlight designer Tina Frey's spring 2022 line at its new Homenature x Tina Frey summer pop-up shop in Southampton. The shop will be open from June 1 through September. Tabletop and serving pieces, decorative items, lamps... Frey's pieces have been a staple of white minimalist offerings at Homenature for years. But this new summer pop-up will, for the first time, offer a line of colorful pieces to brighten the home. Best of all, Frey herself will be on-site the weekend of July 16 to meet and greet and provide firsthand insight into the inspirations behind her singular vision. "As Homenature nears its 25th anniversary, it's still the destination for beautiful accessories and furnishings for your Hamptons home," say Heilmann and DiSalvo. "With our rotating selection of in-stock sofas, chairs, tables, accessories and vintage, there is always something new to see." *2 Main St., Southampton, 631.287.6277, homenature.com*
